

**The ground breaking ceremony took place on March 5, 2004**

Father Rex Lumine officiated the ceremony. Father Francis and many other priests co-officiated. Elders from the nearby village were invited for the ceremony:

Father Rex Lumine prays along with other priests and elders of the nearby village:

These 11 bricks will become the corner stone of the new building. These bricks will be blessed and laid in the ground during the ceremony:

Sandalwood paste was used by each priest to place the sign of the cross on each brick:

Father Francis throws coins and religious medals into the ground:

Father Francis laid the first brick into the ground, priests and elders did the same:

Once all the bricks were in the ground cement was placed on top to keep them together. Jasmine flowers were placed on the top and then covered completely with sand:

This building will house the main electrical supply for the entire Institute. This is the first building built on our property:

**Phase I - Construction**  
**St. Joan of Arc Community College**

The construction for Phase I will contain seven classrooms, three classrooms for Theory Instruction and four classrooms for Lab work. There are also four rooms that can be used for Administrative purposes.

Construction Under Way:

First floor of Community College:

Working on concrete roof:
